

Phan Quang Dien

Software engineer

Ha Dong - Ha Noi
dienpq1604@gmail.com
0835285369

EDUCATION

09/2019	+	Post and Telecommunications Institute of Technology
↓		Information Technology - Software Technology
12/2023		Graduated with excellent results in core subjects, including: • Object-Oriented Programming (OOP) • Web Development • Information System Analysis & Design • Software quality assurance • Software project management Gained solid hands-on experience in software development, system architecture, and practical problem-solving. Developed strong foundation in programming, web technologies, and system design principles.

WORK EXPERIENCES

4/2024	+	Blockodyyssey
↓		Software Engineer
Currently		Technologies: • Languages: JavaScript, TypeScript, NodeJS. • Frameworks: Reactjs, Nextjs, Nestjs. • Databases: MySQL, Redis. • UI/UX: Shadcn, Ant Design. • APIs: RESTful. Projects: • Blockodyyssey: https://blockodyyssey.io • Golfzon Vietnam: https://golfzonvietnam.com • Stacker: https://stacker.money • Allroundz: https://allroundz.io • Foodtrace: https://foodtrace24.com
4/2023	+	BSS Group
↓		Shopify Developer
4/2024		Technologies: • Languages: Javascript, Nodejs • Frameworks: Reactjs, Nextjs, KoaJS. • Database: MySQL. • UI/UX: Polaris.

TARGET

Consistently excel in assigned tasks while continuously improving myself with the goal of obtaining AWS certification and expanding my knowledge and experience in ReactJS, NextJS, NestJS, Nodejs and Python. My long-term objective is to become a Software Architect (SA) with strong expertise in programming languages, infrastructure, software architecture, and communication skills.

SKILLS

Frontend: • Languages: HTML, CSS, JavaScript, TypeScript. • Frameworks: ReactJS, NextJS, VueJS. • UI/UX: Shadcn, Material UI, Ant Design, Polaris, Tailwind CSS, Bootstrap.
Backend: • Languages: Node.js, Java, Python, PHP. • Frameworks: Nestjs, Java Spring Boot, Laravel, KoaJS. • Database: MySQL, PostgreSQL, MongoDB, Redis. • APIs: RESTful, GraphQL.
Database: • MySQL, PostgreSQL, MongoDB, Redis.
DevOps: (Studying) • Docker, Kubernetes, AWS, CI/CD.

HOBBIES

- Listen to music

- APIs: RESTful, GraphQL.

Projects:

- B2B Wholesale Solution: <https://apps.shopify.com/b2b-solution-custom-pricing>
- B2B Quotes & Quich Order: <https://apps.shopify.com/b2b-customer-portal-quick-order>

- Sing Karaoke
- Play soccer
- E-sport

8/2022

Yopaz

2/2023

PHP Developer

Technologies:

- Languages: PHP.
- Frameworks: Laravel, VueJS.
- Databases: MySQL.
- UI/UX: Bootstrap, Ant Design.

Projects:

- EduTech

CERTIFICATES

2020 Outstanding completion of the algorithm course organized by Samsung.

AWARDS

2020 ICPC Talent Award, Post and Telecommunications Institute of Technology.

2018 Third Prize, Outstanding IT Student in High School.
